

Iraq War

Whether

you were in favor or against the Iraq War, the self evident truth is that the American taxpayer cannot afford to pay roughly \$15 billion each month. The war has a price tag of \$3 Trillion and growing. Most of this money is being borrowed from Communist China and Saudi Arabia, where 15 of the 19 hijackers on 9/11 came from. On our crusade to protect our national security and spread democracy, our administration has put the United States in financial jeopardy which is now the greatest threat to our national security. The risk of economic collapse at home far outweighs the chaos that the current administration proclaims will occur in the Middle East if we return our troops sooner rather than later.
